

September 10, 2015

Dear Dr. Maria Fernanda de Mello Costa,

I am delighted to invite you to participate in an externship in the College of Veterinary Large Animal Internal Medicine at Purdue University for two weeks. Dr. Couetil will be your mentor and you should plan to arrive to Purdue and begin your clinical rotation at 8:00 a.m. on Monday, November 30, 2015. Please be aware that you will need to have no contact with animals outside of the United States for **5 days prior** to entering the veterinary school complex.

We are looking forward to meeting you and hope that you have a rewarding experience at Purdue University.

Sincerely,

William Smith II
Director of International Programs
Purdue University College of Veterinary Medicine
